Design and Development of iDetect: An OCR-Driven Discount ID Validity Checker System for Food Service Establishments in Valenzuela City

Dear Respondent,

Greetings!

We are students of the Bachelor of Science in Information Technology program at Pamantasan ng Lungsod ng Valenzuela, currently undertaking a capstone research study entitled "Design and Development of iDetect: An OCR-Driven Discount ID Validity Checker System for Food Service Establishments in Valenzuela City." In connection with this undertaking, we respectfully request your participation in a survey intended to gather relevant data for our study.

Your participation in this survey is entirely voluntary, and you may choose to withdraw at any point without any consequence. By completing this form, you are providing your informed consent to take part in this study. We assure you that all information you provide will be treated with the utmost confidentiality and will be used exclusively for academic purposes.

We sincerely appreciate your time and cooperation in this endeavor.

Demographic Profile

Direction: Please place a check mark beside the option that corresponds to your answer.

Name (Optional): _____

Age: _____

Sex:

☐ Male ☐ Female ☐ Prefer not to say

Role:

☐ Business Establishment Staff ☐ PDAO Personnel ☐ BPLO Personnel

☐ Senior Citizen / PWD Beneficiary ☐ IT Expert

Position / Designation (if applicable): _____

Directions: Please pick a rating for each criterion whether:
(SA) STRONGLY AGREE (4), (A) AGREE (3), (D) DISAGREE (2), or (SD) STRONGLY DISAGREE (1).

Please answer only the item(s) that correspond to your role

ISO/IEC 25010:2023 Criteria	SA(4)	A(3)	D(2)	SD(1)
A. Functional Suitability				
1.1 Functional Completeness The system provides a full set of functions that covers all specified tasks and user goals. ***As Business Establishment Staff:*** iDetect's Client Portal provides all the functions I need to capture, validate, and flag Senior Citizen/PWD discount IDs during a transaction. *Nagbibigay ang Client Portal ng iDetect ng lahat ng function na kailangan ko para kumuha ng larawan, i-validate, at i-flag ang Senior Citizen/PWD discount ID sa isang transaksyon.* ***As OSCA Personnel:*** The OSCA Portal provides all the functions I need to manage Senior Citizen ID records, receive flagged credentials, and investigate fraud reports. *Nagbibigay ang OSCA Portal ng lahat ng function na kailangan ko para pamahalaan ang mga Senior Citizen ID record, matanggap ang mga na-flag na kredensial, at siyasatin ang mga fraud report.* ***As PDAO Personnel:*** The PDAO Portal provides all the functions I need to manage PWD ID records, receive flagged credentials, and investigate fraud reports. *Nagbibigay ang PDAO Portal ng lahat ng function na kailangan ko para pamahalaan ang mga PWD ID record, matanggap ang mga na-flag na kredensial, at siyasatin ang mga fraud report.* ***As BPLO Personnel:*** The BPLO Portal provides all the functions I need to manage establishment accounts, validate business permits, and monitor system access. *Nagbibigay ang BPLO Portal ng lahat ng function na kailangan ko para pamahalaan ang mga account ng establisyimento, i-validate ang business permit, at subaybayan ang access sa sistema.* ***As Senior Citizen/PWD Beneficiary:*** The iDetect app lets me do everything I need, register my account, check my ID's status, and file a dispute if needed. *Nagagawa ko sa iDetect app ang lahat ng kailangan ko magparehistro ng account, tingnan ang status ng aking ID, at maghain ng dispute kung kailangan.*				
1.2 Functional Appropriateness The system's functions make it easy to accomplish the intended tasks. ***As Business Establishment Staff:*** The features of the Client Portal (OCR scanning, manual entry fallback, flagging) make ID verification easier for me at the counter. *Ang mga feature ng Client Portal (OCR scanning, manual entry, pag-flag) ay nagpapadali sa akin sa pag-verify ng ID sa counter.* ***As OSCA/PDAO Personnel:*** The features of our Portal (flagged notifications, investigation workflow, analytics dashboard) make fraud investigation easier for our office. *Ang mga feature ng aming Portal (flagged notifications, investigation workflow, analytics dashboard) ay nagpapadali sa amin sa pagsisiyasat ng fraud.* ***As BPLO Personnel:*** The features of the BPLO Portal make it easier for our office to manage establishment accounts and monitor technical performance. *Ang mga feature ng BPLO Portal ay nagpapadali sa amin sa pamamahala ng account at pagsubaybay ng technical performance.* ***As Senior Citizen/PWD Beneficiary:*** The features of the app (notifications, dispute filing, transaction history) make it easier for me to monitor and protect my discount ID. *Ang mga feature ng app (notifications, dispute filing, transaction history) ay nagpapadali sa akin na subaybayan at protektahan ang aking discount ID.*				

1.3 Functional Correctness The system gives accurate, precise results when used. ***As Business Establishment Staff:*** iDetect gives accurate validation results (VALID, SUSPICIOUS, or INVALID) based on the ID presented. *Nagbibigay ang iDetect ng tamang resulta ng validation (VALID, SUSPICIOUS, o INVALID) batay sa ID na ipinakita.* ***As OSCA/PDAO Personnel:*** Our Portal accurately reflects the correct beneficiary record and flagged transaction details. *Tumpak na inilalarawan ng aming Portal ang tamang record ng benepisyaryo at detalye ng na-flag na transaksyon.* ***As BPLO Personnel:*** The BPLO Portal accurately reflects the correct status of establishment accounts and permits. *Tumpak na inilalarawan ng BPLO Portal ang tamang status ng account at permit ng establisyimento.* ***As Senior Citizen/PWD Beneficiary:*** The app shows the correct and accurate status of my ID and transactions. *Ipinapakita ng app ang tama at wastong status ng aking ID at mga transaksyon.*				
B. Performance Efficiency				
2.1 Time Behaviour The system responds and processes within acceptable time and throughput limits. ***As Business Establishment Staff:*** iDetect validates a discount ID faster than our previous manual process. *Mas mabilis mag-validate ng discount ID ang iDetect kumpara sa dati naming manual na proseso.* ***As IT Expert:*** The system's response and validation times consistently meet the specified performance benchmarks under normal load conditions. *Ang oras ng pagtugon at pag-validate ng sistema ay palaging natutugunan ang mga itinakdang performance benchmark sa normal na kondisyon ng paggamit.*				
2.2 Capacity The system can handle the maximum limits required (e.g., users, data, transactions) without degrading. ***As Business Establishment Staff:*** iDetect can still process ID validations smoothly even during peak hours with many customers. *Kaya pa ring i-proseso nang maayos ng iDetect ang pag-validate ng ID kahit peak hours na maraming customer.* ***As IT Expert:*** The system's architecture can handle the projected number of concurrent users and transactions without significant degradation in performance. *Kaya ng arkitektura ng sistema na tugunan ang inaasahang bilang ng sabayang user at transaksyon nang walang malaking pagbaba sa performance.*				
2.3 Resource Utilization The system uses an appropriate/minimal amount of resources (CPU, memory, storage, battery, data) to perform its functions. ***As Business Establishment Staff:*** iDetect runs smoothly on our mobile device without excessive battery drain or data usage. *Maayos gumana ang iDetect sa aming mobile device nang hindi labis na naguubos ng baterya o data.* ***As Senior Citizen/PWD Beneficiary:*** The app runs smoothly on my phone without excessive battery drain or data usage. *Maayos gumagana ang app sa aking telepono nang hindi labis na naguubos ng baterya o data.* ***As IT Expert:*** The system's backend processes (e.g., OCR extraction, database queries) are optimized to use computing resources efficiently. *Ang mga backend na proseso ng sistema (hal., OCR extraction, database queries) ay na-optimize upang episyenteng magamit ang mga computing resource.*				

C. Compatibility				
3.1 Co-Existence The system works well alongside other systems/tools sharing the same environment, without conflict. ***As OSCA/PDAO Personnel:*** Our Portal works well alongside our office's existing systems and tools without conflicts. *Maayos gumagana ang aming Portal kasabay ng mga umiiral na sistema at tool ng aming opisina nang walang salungatan.* ***As IT Expert:*** The system's components can run alongside other software and services in the deployment environment without conflicts or resource contention. *Ang mga bahagi ng sistema ay kayang gumana kasabay ng ibang software at serbisyo sa deployment environment nang walang salungatan o resource contention.*				
3.2 Interoperability The system can exchange and properly use data with other systems. ***As OSCA/PDAO Personnel:*** Our Portal successfully exchanges validation and flagged-credential data with the Client Portal used by establishments. *Matagumpay na nagpapalitan ng datos sa validation at na-flag na kredensyal ang aming Portal sa Client Portal na ginagamit ng mga establisyimento.* ***As BPLO Personnel:*** *Our Portal works well alongside our office's existing systems and tools without conflicts.* Maayos gumagana ang aming Portal kasabay ng mga umiiral na sistema at tool ng aming opisina nang walang salungatan. ***As IT Expert:*** The system's API and data-exchange mechanisms allow the five portals to correctly send, receive, and interpret shared data (e.g., validation results, flagged credentials). *Ang API at mekanismo ng pagpapalitan ng datos ng sistema ay nagbibigay-daan sa limang portal na tama at maayos na magpadala, tumanggap, at magbigay-kahulugan sa ibinahaging datos (hal., resulta ng validation, na-flag na kredensial).*				
D. Interaction Capability				
4.1 Appropriateness Recognizability Users can immediately recognize that the product suits their needs. When I first used iDetect, I could immediately tell that it was designed for discount ID verification and management. *Nang una kong gamitin ang iDetect, kaagad kong nakilala na ito ay dinisenyo para sa pag-verify at pamamahala ng discount ID.*				
4.2 Learnability Users can learn to use the product's functions quickly. I was able to learn how to use iDetect's features quickly. *Mabilis kong natutunan gamitin ang mga feature ng iDetect.*				
4.3 Operability The system's functions are easy to operate and control. The steps needed to complete my tasks in iDetect are easy to perform. *Madali kong magawa ang mga hakbang na kailangan para matapos ang aking gawain sa iDetect.*				
4.4 User Error Protection The system helps prevent users from making mistakes. iDetect helps prevent me from making mistakes while using it. *Tinutulungan ako ng iDetect na maiwasan ang mga pagkakamali habang ginagamit ito.*				
4.5 User Engagement The system presents information in a way that is inviting and encourages continued use. Using iDetect makes my related tasks feel more efficient and satisfying. *Ang paggamit ng iDetect ay nagpapadama na mas episyente at kasiya-siya ang aking mga kaugnay na gawain.*				

4.6 Inclusivity The system can be used comfortably by people of varied backgrounds and skill levels. ***As Business/OSCA/PDAO/BPLO Personnel:*** iDetect can be used comfortably by personnel with different levels of technical skill. *Komportableng magamit ang iDetect ng mga tauhan na iba't ibang antas ng kasanayan sa teknolohiya.* ***As Senior Citizen/PWD Beneficiary:*** The app is usable for me despite my age or any disability I may have (e.g., readable text, easy-to-tap buttons). *Nagagamit ko ang app sa kabila ng aking edad o anumang kapansanan (hal., malinaw basahin ang teksto, madaling pindutin ang mga buton).*				
4.7 User Assistance The system can be used by people with a wide range of abilities and needs, providing adequate guidance/help. iDetect provides enough guidance or help when I need it. *Nagbibigay ang iDetect ng sapat na gabay o tulong kapag kailangan ko ito.*				
4.8 Self-Descriptiveness The system's information/status is clear and understandable without needing extra explanation. The information and statuses shown by iDetect are clear and understandable on their own. *Malinaw at maintindihan ang impormasyon at status na ipinapakita ng iDetect kahit walang karagdagang paliwanag.*				
E. Reliability				
5.1 Faultlessness The system performs its functions without errors under normal use. ***As OSCA/PDAO Personnel:*** Our Portal performs its functions (record management, flagged notifications) without unexpected errors. *Gumagana ang mga function ng aming Portal (record management, flagged notifications) nang walang hindi inaasahang error.* ***As BPLO Personnel:*** Our Portal performs its functions (account management, permit validation) without unexpected errors. *Gumagana ang mga function ng aming Portal (account management, permit validation) nang walang hindi inaasahang error.* ***As IT Expert:*** Based on technical review and testing, the system's core functions execute without unexpected errors or crashes under normal operating conditions. *Batay sa teknikal na pagsusuri at pagsubok, ang mga pangunahing function ng sistema ay tumatakbo nang walang hindi inaasahang error o crash sa normal na kondisyon ng operasyon.*				
5.2 Fault Tolerance The system keeps working properly even when minor system/technical issues occur. ***As Business Establishment Staff:*** iDetect continues to be usable at the counter (e.g., through offline cached results) even when there are minor connectivity issues. *Patuloy na nagagamit ang iDetect sa counter (hal., sa pamamagitan ng offline cached na resulta) kahit may maliliit na isyu sa koneksyon.* ***As OSCA/PDAO Personnel:*** Our Portal continues to function properly even when there are minor system or connectivity issues. *Patuloy na gumagana nang maayos ang aming Portal kahit may maliliit na isyu sa sistema o koneksyon.* ***As BPLO Personnel:*** Our Portal continues to function properly even when there are minor system or connectivity issues. *Patuloy na gumagana nang maayos ang aming Portal kahit may maliliit na isyu sa sistema o koneksyon.* ***As Senior Citizen/PWD Beneficiary:*** The app remains usable (e.g., viewing my ID status offline) even when there are minor connectivity issues. *Nananatiling magagamit ang app (hal., tingnan ang status ng ID kahit offline) kahit may maliliit na isyu sa koneksyon* ***As IT Expert:*** The system is designed to continue operating, or degrade gracefully, when it encounters partial failures such as network interruptions or database timeouts. *Ang sistema ay dinisenyo upang patuloy na gumana, o unti-unting bumaba ang performance nang maayos, kapag may bahagyang kabiguan tulad ng pagkaantala ng network o database timeout.*				

5.3 Availability The system is accessible and operational whenever needed. ***As OSCA/PDAO Personnel:*** Our Portal is accessible whenever our office needs to use it during business hours. *Naa-access ang aming Portal tuwing kailangan namin itong gamitin sa oras ng trabaho.* ***As BPLO Personnel:*** Our Portal is accessible whenever our office needs to use it during business hours. *Naa-access ang aming Portal tuwing kailangan namin itong gamitin sa oras ng trabaho.* ***As IT Expert:*** The system's architecture and hosting setup are configured to maintain acceptable uptime for the intended operating hours. *Ang arkitektura at hosting setup ng sistema ay naka-configure upang mapanatili ang katanggap-tanggap na uptime para sa inaasahang oras ng operasyon.*				
5.4 Recoverability The system can recover data and restore normal operation after an interruption or failure. ***As OSCA/PDAO Personnel:*** If our Portal experiences an interruption, it is able to recover and restore accurate data without loss. *Kapag naantala ang aming Portal, nagagawa nitong ibalik at i-restore ang tamang datos nang walang nawawala.* ***As BPLO Personnel:*** If our Portal experiences an interruption, it is able to recover and restore accurate account and permit data without loss. *Kapag naantala ang aming Portal, nagagawa nitong ibalik at i-restore ang tamang datos ng account at permit nang walang nawawala.* ***As IT Expert:*** The system has mechanisms in place (e.g., backups, transaction logs) to recover data and restore normal operation after a failure or interruption. *May mga mekanismo ang sistema (hal., backup, transaction log) upang mabawi ang datos at maibalik ang normal na operasyon pagkatapos ng kabiguan o pagkaantala*				
F. Security				
6.1 Confidentiality Only authorized users/entities can access specific data. ***As OSCA/PDAO Personnel:*** Our Portal ensures that only authorized personnel can access Senior Citizen/PWD beneficiary records. *Tinitiyak ng aming Portal na ang mga awtorisadong tauhan lamang ang makaka-access sa mga rekord ng benepisyaryo.* ***As BPLO Personnel:*** The BPLO Portal correctly prevents me from accessing flagged credential records or beneficiary personal information, which are outside our office's authorized scope. *Wastong pinipigilan ako ng BPLO Portal na ma-access ang mga na-flag na rekord o personal na impormasyon ng benepisyaryo, dahil labas ito sa saklaw ng aming opisina.* ***As Senior Citizen/PWD Beneficiary:*** I trust that my personal information in the app is only accessible to authorized offices (OSCA/PDAO) and not shared unnecessarily with businesses. *Nagtitiwala ako na ang aking personal na impormasyon sa app ay naa-access lamang ng awtorisadong opisina (OSCA/PDAO) at hindi ibinabahagi nang hindi kinakailangan sa mga negosyo.* ***As IT Expert:*** The system correctly implements access control and authentication mechanisms so that beneficiary and establishment data are accessible only to authorized users and roles. *Wastong ipinapatupad ng sistema ang access control at authentication upang ang datos ng benepisyaryo at establisyimento ay maa-access lamang ng mga awtorisadong user at role.*				

6.2 Integrity Data and system states are protected from unauthorized changes. ***As Business/OSCA/PDAO/BPLO Personnel:*** iDetect protects the records in our Portal from unauthorized changes. *Pinoprotektahan ng iDetect ang mga rekord sa aming Portal laban sa hindi awtorisadong pagbabago.* ***As Senior Citizen/PWD Beneficiary:*** I trust that my ID and personal records in the app cannot be changed without my knowledge.*Nagtitiwala ako na hindi mababago ang aking ID at personal na rekord sa app nang wala akong kaalaman.* ***As IT Expert:*** The system's database and application logic prevent unauthorized modification or deletion of records. *Pinipigilan ng database at application logic ng sistema ang hindi awtorisadong pagbabago o pagbura ng mga rekord.*				
6.3 Non-Repudiation Actions or events can be proven to have occurred and cannot be denied later. ***As OSCA/PDAO Personnel:*** Our Portal's audit logs allow us to confirm that a specific validation or investigation action actually took place. *Ang audit logs ng aming Portal ay nagbibigay-daan sa aming kumpirmahin na naganap talaga ang isang partikular na aksyon sa validation o imbestigasyon.* ***As BPLO Personnel:*** Our Portal's audit logs allow us to confirm that a specific account or permit management action actually took place. *Ang audit logs ng aming Portal ay nagbibigay-daan sa aming kumpirmahin na naganap talaga ang isang partikular na aksyon sa pamamahala ng account o permit.* ***As IT Expert:*** The system generates audit logs sufficient to prove that a specific validation, flagging, or administrative action actually took place. *Nakabubuo ang sistema ng audit log na sapat upang mapatunayan na naganap talaga ang isang partikular na aksyon sa validation, flagging, o pangangasiwa.*				
6.4 Accountability Actions can be traced back to the specific user/entity who performed them. ***As OSCA/PDAO/BPLO Personnel:*** Our Portal's audit logging allows us to trace who performed a specific action on a record. *Nagbibigay-daan ang audit logging ng aming Portal na masubaybayan kung sino ang gumawa ng isang partikular na aksyon sa isang rekord.* ***As IT Expert:*** *The system's audit logging correctly attributes each action to the specific user account that performed it.* *Wastong iniuugnay ng audit logging ng sistema ang bawat aksyon sa partikular na user account na gumawa nito.*				
6.5 Authenticity The identity of a user or resource can be verified as genuine. ***As OSCA/PDAO/BPLO Personnel:*** Our Portal reliably verifies the identity of personnel logging in before granting access to records. *Maaasahang na-veverify ng aming Portal ang pagkakakilanlan ng tauhan bago bigyan ng access sa mga rekord.* ***As Senior Citizen/PWD Beneficiary:*** The app's registration process (ID number, birthdate, OTP) makes me confident that only I can access my account. *Ang proseso ng pagpaparehistro ng app (ID number, birthdate, OTP) ay nagpapadama sa akin ng kumpiyansa na ako lamang ang makaka-access sa aking account.* ***As IT Expert:*** The system's login and identity-verification mechanisms (e.g., role-based credentials, OTP) reliably confirm that users are who they claim to be. *Maaasahang kinukumpirma ng mekanismo ng login at identity verification ng sistema (hal., role-based credentials, OTP) na ang user ay talagang siya niyang inaangkin.*				
6.6 Resistance The system can continue operating safely even while under attack (e.g., hacking attempts). ***As OSCA/PDAO Personnel:*** Our Portal continues to protect data even when facing unusual or suspicious access attempts. *Patuloy na pinoprotektahan ng aming Portal ang datos kahit may kakaiba o kahina-hinalang pagtatangkang mag-access.*				

As BPLO Personnel: Our Portal continues to protect data even when facing unusual or suspicious access attempts. *Patuloy na pinoprotektahan ng aming Portal ang datos kahit may kakaiba o kahina-hinalang pagtatangkang mag-access.* ***As IT Expert:*** The system includes safeguards (e.g., rate limiting, input validation) that allow it to withstand common attack attempts, such as unauthorized access or injection attacks. *May mga proteksyon ang sistema (hal., rate limiting, input validation) na nagpapahintulot dito na labanan ang karaniwang pag-atake, tulad ng hindi awtorisadong pag-access o injection attack.*				
G. Maintainability				
7.1 Modularity Changes to one component don't affect other components. ***As BPLO Personnel:*** Issues affecting one establishment's account on the BPLO Portal do not affect the accounts or functions of other establishments. *Ang isyu sa account ng isang establisyimento sa BPLO Portal ay hindi naaapektuhan ang mga account o function ng ibang establisyimento.* ***As IT Expert:*** The system's five portals are structured so that a change or issue in one component does not unintentionally affect the others. *Ang limang portal ng sistema ay istruktura sa paraang ang pagbabago o isyu sa isang bahagi ay hindi sinasadyang nakaaapekto sa iba.*				
7.2 Reusability Parts of the system can be reused in other systems or components. ***As BPLO Personnel:*** The account management and monitoring features of the BPLO Portal could reasonably be reused or adapted for other LGU offices with similar needs. *Ang mga feature ng BPLO Portal sa pamamahala ng account at pagsubaybay ay maaaring magamit muli o iangkop para sa ibang opisina ng LGU na may katulad na pangangailangan.* ***As IT Expert:*** Components of the system (e.g., OCR pipeline, authentication module) are designed in a way that they could reasonably be reused in other similar systems. *Ang mga bahagi ng sistema (hal., OCR pipeline, authentication module) ay dinisenyo sa paraang maaaring gamitin muli sa ibang katulad na sistema*				
7.3 Analyzability Problems, causes of failure, or needed changes can be easily identified. ***As BPLO Personnel:*** When a problem occurs on the BPLO Portal, the monitoring information provided helps us identify the likely cause. *Kapag may problema sa BPLO Portal, nakakatulong ang monitoring information na malaman ang posibleng dahilan* ***As IT Expert:*** The system's logs and error-reporting mechanisms make it possible to diagnose the cause of a defect or determine which parts require modification. *Ang mga log at error-reporting mechanism ng sistema ay nagbibigay-daan upang masuri ang sanhi ng depekto o matukoy ang mga bahaging kailangang baguhin.*				
7.4 Modifiability The system can be changed/updated without introducing new defects. ***As BPLO Personnel:*** Updates or changes made to the BPLO Portal do not disrupt our ongoing account management and monitoring tasks. *Ang mga update o pagbabago sa BPLO Portal ay hindi naaabala ang aming patuloy na gawain sa pamamahala at pagsubaybay ng account.* ***As IT Expert:*** The system's codebase can be modified or updated without introducing new defects or degrading existing functionality. *Ang codebase ng sistema ay maaaring baguhin o i-update nang hindi nagdudulot ng bagong depekto o nakababawas sa umiiral na functionality.*				

7.5 Testability The system allows tests to be designed and performed to check if requirements are met. ***As BPLO Personnel:*** The BPLO Portal's monitoring functions make it possible for us to verify whether establishments are meeting compliance requirements. *Ang mga monitoring function ng BPLO Portal ay nagbibigay-daan sa amin na ma-verify kung sumusunod ang mga establisyimento sa mga kinakailangan.* ***As IT Expert:*** The system's design allows test cases to be designed and executed to objectively verify whether functional requirements are met. *Ang disenyo ng sistema ay nagbibigay-daan upang makagawa at maisagawa ang mga test case na obehetibong beberipika kung natutugunan ang mga functional requirement.*				
H. Flexibility				
8.1 Adaptability The system still performs well under different conditions or environments. ***As Business Establishment Staff:*** iDetect still works well even under different lighting or ID card conditions at my counter. *Gumagana pa rin nang maayos ang iDetect kahit magkaiba ang liwanag o kondisyon ng ID sa aking counter.* ***As Senior Citizen/PWD Beneficiary:*** The app works well on my mobile phone even under my usual conditions of use. *Maayos gumagana ang app sa aking mobile phone kahit sa karaniwang kondisyon ng paggamit ko.* ***As IT Expert:*** The system can be effectively adapted to different hardware, network, or operational environments (e.g., varying LGU IT capacities). *Ang sistema ay epektibong maaaring iangkop sa iba't ibang hardware, network, o operational na kapaligiran (hal., magkakaibang IT capacity ng mga LGU).*				
8.2 Installability The system can be installed/updated (or uninstalled) easily and successfully. ***As Business Establishment Staff:*** Installing and updating iDetect on our device was quick and easy. *Mabilis at madali ang pag-install at pag-update ng iDetect sa aming device.* ***As Senior Citizen/PWD Beneficiary:*** Installing and setting up the app on my phone was quick and easy. *Mabilis at madali ang pag-install at pag-set up ng app sa aking telepono.* ***As IT Expert:*** The system can be installed, configured, and deployed successfully across the five portals with reasonable technical effort. *Ang sistema ay matagumpay na maaaring i-install, i-configure, at i-deploy sa limang portal nang may makatwirang teknikal na pagsisikap.*				
8.3 Scalability The system can handle growing or shrinking workloads/users without performance loss. ***As BPLO Personnel:*** The BPLO Portal is able to accommodate a growing number of registered establishments without a noticeable drop in performance. *Kaya ng BPLO Portal na tugunan ang dumaraming rehistradong establisyimento nang hindi kapansin-pansing bumababa ang performance.* ***As IT Expert:*** The system's architecture can accommodate a growing number of users, establishments, or transactions without a significant drop in performance. *Kaya ng arkitektura ng sistema na tugunan ang dumaraming bilang ng user, establisyimento, o transaksyon nang walang malaking pagbaba sa performance.*				

8.4 Replaceability The system can replace an old system/process without losing important functions. ***As BPLO Personnel:*** The BPLO Portal could reasonably replace our office's previous manual establishment-monitoring process without losing important functions. *Ang BPLO Portal ay maaaring makapalit sa dating manual na proseso ng aming opisina nang hindi nawawala ang mahahalagang function.* ***As IT Expert:*** The system is designed in a way that it, or its components, could reasonably replace an LGU's previous manual or legacy validation process. *Ang sistema ay dinisenyo sa paraang maaari itong, o ang mga bahagi nito, makapalit sa dating manual o legacy na proseso ng validation ng LGU.*				
I. Safety				
9.1 Operational Constraint The system limits actions/access to only what is within a user's safe/authorized scope. ***As BPLO Personnel:*** The BPLO Portal keeps my access strictly limited to establishment account and permit functions, preventing me from taking actions outside our office's authority. *Pinananatili ng BPLO Portal ang aking access sa loob lamang ng function ng account at permit ng establisyimento, na pumipigil sa aking gumawa ng aksyon na labas sa awtoridad ng aming opisina.* ***As IT Expert:*** The system's role-based access control technically enforces that each user type can only perform actions within their authorized scope. *Teknikal na ipinapatupad ng role-based access control ng sistema na ang bawat uri ng user ay makagagawa lamang ng aksyon sa loob ng kanilang awtorisadong saklaw.*				
9.2 Fail Safe The system reverts to a safe state or fallback option when a failure occurs. ***As Business Establishment Staff:*** When iDetect's OCR scan fails or is unclear, it lets me fall back to manual entry instead of blocking the transaction. *Kapag nabigo o hindi malinaw ang OCR scan ng iDetect, pinapayagan nito akong gumamit ng manual entry sa halip na harangan ang transaksyon.* ***As Senior Citizen/PWD Beneficiary:*** If my discount is wrongly denied, the app's dispute feature gives me a safe way to correct the mistake. *Kung mali akong tinanggihan sa aking diskwento, ang dispute feature ng app ay nagbibigay sa akin ng ligtas na paraan para maitama ang pagkakamali.* ***As IT Expert:*** When a component fails (e.g., OCR extraction, network connection), the system reverts to a safe fallback (e.g., manual entry) instead of an unsafe or undefined state. *Kapag nabigo ang isang bahagi (hal., OCR extraction, koneksyon sa network), bumabalik ang sistema sa ligtas na fallback (hal., manual entry) sa halip na hindi ligtas o hindi tiyak na estado*				
9.3 Hazard Warning The system warns users of risks in time for them to respond appropriately. ***As Business Establishment Staff:*** iDetect warns me clearly when an ID is SUSPICIOUS so I can respond appropriately before completing the transaction. *Malinaw akong binabalaan ng iDetect kapag SUSPICIOUS ang isang ID para makagawa ako ng tamang hakbang bago tapusin ang transaksyon.* ***As IT Expert:*** The system's logic correctly triggers timely warnings (e.g., SUSPICIOUS flags) before a potentially risky transaction is completed. *Wastong nagbibigay ang logic ng sistema ng napapanahong babala (hal., SUSPICIOUS na flag) bago matapos ang isang transaksyong maaaring may panganib.*				

9.4 Risk Identification The system helps identify situations or transactions that may need further investigation/action. ***As OSCA/PDAO Personnel:*** Our Portal helps our office identify credentials or transactions that need further fraud investigation. *Tinutulungan kami ng aming Portal na makilala ang mga kredensial o transaksyon na kailangan pang siyasatin para sa fraud.* ***As Senior Citizen/PWD Beneficiary:*** The app helps me know when there might be a problem with my ID before it becomes a bigger issue (e.g., through status updates or notifications). *Tinutulungan ako ng app na malaman kung may problema sa aking ID bago pa ito lumaki (hal., sa pamamagitan ng status update o notification).* ***As IT Expert:*** The system's validation logic is technically capable of correctly identifying credentials or transactions that require further fraud investigation. *Teknikal na kayang tumukoy nang wasto ng validation logic ng sistema sa mga kredensyal o transaksyong nangangailangan pa ng karagdagang imbestigasyon sa fraud.*				
9.5 Safe Integration The system integrates with other systems/components without disrupting existing safe operations. ***As OSCA/PDAO Personnel:*** Our Portal integrates with the Client Portal and beneficiary records without disrupting our office's existing verification and database processes. *Ang aming Portal ay maayos na nag-i-integrate sa Client Portal at mga rekord ng benepisyaryo nang hindi naaabala ang umiiral na proseso ng verification at database ng aming opisina.* ***As BPLO Personnel:*** Our Portal integrates with the Client Portal's establishment verification without disrupting our office's existing account and permit management processes. *Ang aming Portal ay maayos na nag-i-integrate sa establishment verification ng Client Portal nang hindi naaabala ang umiiral na proseso ng aming opisina sa pamamahala ng account at permit.* ***As IT Expert:*** The system's integration points between portals and with OSCA/PDAO databases are implemented in a way that does not compromise the safety or integrity of existing processes. *Ang mga integration point ng sistema sa pagitan ng mga portal at sa OSCA/PDAO database ay ipinatupad sa paraang hindi nakompromiso ang kaligtasan o integridad ng umiiral na mga proseso*				

FEATURE-BASED QUESTIONNAIRE

Directions: Please pick a rating for each criterion whether:
(SA) STRONGLY AGREE (4), (A) AGREE (3), (D) DISAGREE (2), or (SD) STRONGLY DISAGREE (1).
Please answer only the item(s) that correspond to your role.

Actor: System Administrator

Statement	SA (4)	A(3)	D(3)	SD(1)
1. The project repository, database schemas, and API scaffolding across all five portals are properly set up and verified as operational. *(Ang repository, mga database schema, at API scaffolding sa limang portal ay maayos na naitatag at na-verify na gumagana.)*				
2. Administrator accounts for BPLO, OSCA, and PDAO are pre-configured with correct, isolated access permissions before deployment. *(Ang mga admin account para sa BPLO, OSCA, at PDAO ay pre-configured nang may tama at hiwalay na access bago i-deploy.)*				
3. Security events, including unauthorized access attempts, are logged and can support breach incident reporting when required. *(Ang mga security event, kabilang ang hindi awtorisadong pag-access, ay naitatala at maaaring gamitin sa breach incident report.)*				

Actor: BPLO Officer

Statement	SA (4)	A(3)	D(3)	SD(1)
1. I can create, activate, suspend, or revoke an establishment's account, with permit validation and notifications handled automatically. *(Kaya kong gumawa, i-activate, i-suspend, o i-revoke ang account ng establishment, kasama ang awtomatikong pag-validate ng permit at abiso.)*				
2. The BPLO dashboard clearly shows active accounts, pending actions, and permits nearing expiry. *(Malinaw na ipinapakita ng BPLO dashboard ang mga aktibong account, nakabinbing aksyon, at mga permit na malapit nang mag-expire.)*				
3. I can review beneficiary-submitted reports of establishments that refused a valid discount, and my audit access stays limited to business data. *(Kaya kong suriin ang mga ulat ng benepisyaryo tungkol sa establishment na tumangging magbigay ng diskwento, at limitado lamang ang aking audit access sa business data.)*.				

Actor: OSCA Administrator

Statement	SA (4)	A(3)	D(3)	SD(1)
1. I receive real-time flag notifications for Senior Citizen IDs and can mark confirmed fraud, updating status instantly network-wide. *(Tumatanggap ako ng real-time na abiso ng na-flag na Senior Citizen ID at kayang markahan ang pinatunayang peke, na agad nag-a-update sa buong network.)*				
2. My access is restricted strictly to Senior Citizen records, with no visibility into PWD or BPLO data. *(Mahigpit akong limitado sa mga rekord ng Senior Citizen lamang, walang access sa datos ng PWD o BPLO.)*				
3. I can generate fraud analytics reports and manage record corrections from resolved disputes. *(Kaya kong makabuo ng fraud analytics report at mamahala ng mga pagwawasto mula sa nalutas na dispute.)*				

Actor: PDAO Administrator

Statement	SA (4)	A(3)	D(3)	SD(1)
1. I receive real-time flag notifications for Senior Citizen IDs and can mark confirmed fraud, updating status instantly network-wide. *(Tumatanggap ako ng real-time na abiso ng na-flag na Senior Citizen ID at kayang markahan ang pinatunayang peke, na agad nag-a-update sa buong network.)*				
2. My access is restricted strictly to PWD records, with no visibility into Senior Citizen or BPLO data. *(Mahigpit akong limitado sa mga rekord ng PWD lamang, walang access sa datos ng Senior Citizen o BPLO.)*				
3. I can generate fraud analytics reports and manage record corrections from resolved disputes. *(Kaya kong makabuo ng fraud analytics report at mamahala ng mga pagwawasto mula sa nalutas na dispute.)*				

Actor: Establishment Staff

Statement	SA (4)	A(3)	D(3)	SD(1)
1. I can log in securely, and the camera guides me to capture a clear, well-positioned ID image. *(Kaya kong secured na mag-log in, at ginagabayan ako ng camera para makakuha ng malinaw at tamang posisyon ng larawan ng ID.)*				
2. Extracted ID data is shown for my review, and verification results (VALID/SUSPICIOUS/INVALID) display clearly within 30 seconds. *(Ipinapakita ang extracted na datos ng ID para masuri ko, at malinaw na lumalabas ang resulta ng verification sa loob ng 30 segundo.)*				
3. I can flag a suspicious credential with one tap, and confirmed fraud status updates automatically without a manual refresh. *(Kaya kong i-flag ang isang kahina-hinalang kredensyal sa isang tap, at awtomatikong nag-a-update ang katayuan ng pinatunayang peke.)*				
4. The portal still works offline with clearly labeled cached results, and I can generate compliance reports for my transactions. *(Gumagana pa rin ang portal kahit offline gamit ang malinaw na naka-label na naka-cache na resulta, at kaya kong makabuo ng compliance report.)*				
5. The launch-scan-view workflow is simple enough to use effectively without prior formal training. *(Ang daloy ng launch-scan-tingnan ang resulta ay sapat na kasimple para magamit nang epektibo kahit walang pormal na pagsasanay.)*				

Actor: Beneficiary (Senior Citizen/PWD)

Statement	SA (4)	A(3)	D(3)	SD(1)
1. I can securely log in and optionally register using my ID, birthdate, and OTP verification. *(Kaya kong secured na mag-log in at opsyonal na magrehistro gamit ang aking ID, kaarawan, at OTP verification.)*				
2. I receive instant SMS/push notifications every time my ID is used, including approval or denial reasons. *(Tumatanggap ako ng agarang SMS/push notification tuwing ginagamit ang aking ID, kasama ang dahilan ng pag-apruba o pagtanggi.)*				
3. I can check my current ID status and expiration details, and submit or track disputes for wrongly denied transactions. *(Kaya kong tingnan ang status at petsa ng pag-expire ng aking ID, at magsumite o subaybayan ng dispute para sa maling na-deny na transaksyon.)*				
4. I can report unauthorized ID use or a business's refusal to honor my discount directly from the app. *(Kaya kong iulat ang hindi awtorisadong paggamit ng ID o pagtanggi ng negosyo na igalang ang aking diskwento nang direkta mula sa app.)*				
5. The app remains usable offline, protects my data per the Data Privacy Act, and uses large text and bilingual support for easy use. *(Magagamit pa rin ang app kahit offline, pinoprotektahan ang aking datos ayon sa Data Privacy Act, at gumagamit ng malaking teksto at bilingguwal na suporta.)*
